

**Maria del Carmen Llasat Botija**  
**Short CV November 2014**

---

**Family names:** Llasat Botija      **Name:** Maria del Carmen  
**Date of birth:** 16 June 1959    **DNI:** 38.170.199      **Civil state:** Married (2 children)  
**Address:** Córcega, 697-699    **Postal code:** 08026    **City:** Barcelona  
**Country:** Spain                  **Telephone:** 34-93-4460877

---

**Institution:** University of Barcelona  
**Faculty:** Faculty of Physics  
**Department:** Department of Astronomy and Meteorology  
**Address:** Avda. Diagonal 647    **Postal code:** 08028    **City:** Barcelona  
**Country:** Spain                  **Telephone:** 34-93-4021124  
**FAX:** 34-93-4021133            **e-mail:** carmell@am.ub.es

---

**Higher education:** Licenciate in Physics, june 1983 (calification of “excellent” or “A”)  
Doctor in Physics, april 1987 (“ cum laude”)

---

**ACADEMIC ACTIVITY**

1987-... Lecturer in the Faculty of Physics and in the Faculty of Geography (University of Barcelona)  
1998-1999 Coordinator of the Postgraduate course “Climatología Aplicada” (University of Barcelona)  
1999-... Coordinator of the Master “Applied Climatology” (University of Barcelona)  
2011-... Coordinator of the Master “Applied Climatology and Media” (University of Barcelona)

---

**RESEARCH FIELDS**

- 1.- Hydrometeorological hazards, risk assessment and risk awareness, social impact and perception
  - 2.- Climate change, impact of climatic change on natural hazards, trends and anomalies, seasonal forecasting
  3. - Rate of rainfall, extreme rainfall events, floods and spates, applications of meteorological radar, convective precipitation, hydrometeorological applications and nowcasting.
  - 4- Agrometeorology, hydric balance, forest fires, droughts, meteorological networks, calibration, quality control, remote sensing
-

## RESEARCH ACTIVITY

---

International projects: 18

National projects: 26

National Research contracts: 41

Talks and courses: 46

Doctor's thesis directed: 11 + 3 (in prep)

Master's thesis directed: 18

Master course direction: 1

### PUBLICATIONS:

Articles in peer review international journals: 95 (75 in Citation Index)

Articles in peer review national journals: 33

Published books: 5 (in Spanish or Catalan)

Co-editor of books : 11 (9 from UNESCO)

International reports: 1

Chapters of international books: 12

Chapters of national books: 28

Proceedings "in extenso", national congress: 9

Proceedings "in extenso" international congress: 57

Credited as full professor from the Catalan Evaluation Agency (AGAUR) as well as from the Spanish Evaluation Agency (ANECA)

Abstracts published in international journals: 104

Communications to international meetings: 211

Communications to national meetings: 49

Invited presentation, chairperson in international Congress: 48

Member of scientific committee, and organization: 58

Member of jury of PhD thesis: 24

4 "sexenios" of research

Credited as full professor from the Catalan Evaluation Agency (AGAUR) as well as from the Spanish Evaluation Agency (ANECA)

Director of the GAMA team (Group of Analysis of Meteorological Hazards) of UB

---

## MAIN RESEARCH TEAMS IN WHICH HAS COLLABORATED OR IS COLLABORATING

---

**Spanish or Catalan Government:** Generalitat de Catalunya (Departments of: Agriculture, Environment, Civil Protection, Public Works) /Ministery of Environment. (Centro de Estudios Hidrográficos (CEDEX), Agencia Estatal de Meteorología (AEMET) / Consejo Superior de Investigaciones Científicas (CSIC) / Spanish Civil Protection

**Universities:** U. Barcelona / U.Politécnica de Catalunya / U.Politécnica de València/ U.Iles Balears/ U. Bristol (England) / U. Genova and U. Calabria (Italy)/ U. California, Davis (USA)/ U. Grenoble (France) / University of Montpellier (France) / U. Tel Aviv and TAU (Israel) /

**Others:** CIMA (Italy) / Électricité de France (France) / IRSTA (France) / Météo-France / CNRS (France) / Observatory of Athens (Greece)

---

## MEMBERSHIP IN COMMITTEES AND RESEARCH GROUPS

---

- Past-Chairperson of the Natural Hazards Interdisciplinary Working Group in the European Geophysical Society/ Past-Managing Editor of NHESS/ Member of the

steering committee of the WCP-water of UNESCO/WMO- Member of the Spanish Hydrological Committee of IHP from UNESCO / Past-International coordinator of "Précipitations Extremes", projecte AMHY/FRIEND, UNESCO / Member of the group "Hydrological interpretation of global change predictions", UNESCO / Representative of the Catalan Government (Generalitat de Catalunya) in the postgraduate course "Weather Applications in Agricultural Project", University of California in Davis, USA./ Selected as expert in the RTD PROGRAMME Monitoring-Fourth framework programme, Environment and Climate, UE, 1997, 2009 / expert review of the third , fourth report of IPCC / Coordinator of the Societal Impact Research group of MEDEX and cooordinator of the Impact Social Working Group of HYMEX/ Member of the steering committee of the Catalan Group of Experts on Climatic Change/ Expert adviser (extraordinary) of the ombudsman of Catalonia /Member of the Adviser Council of Catalan Government (Consellera del Consell Assessor del Desenvolupament Sostenible de la Generalitat de Catalunya, CADS) / Member of the scientific committee of *Comité de Basin Adour-Garonne* /Member of the scientific committee of *Observatoire Pyrénén du Changement Climatique* / Member of the *Comité Scientifique et Technique de la Société Hydrotechnique Française* and of the Editorial Committee of La Houille Blanche / Member of the Water institute of the University of Barcelona / Member of the scientific committee of UNESCO Catalunya /President of the Plinius Medal Committee/ Member of different expert review committees from EU, CNRS (France), CICYT (Spain), AGAUR (Catalonia),.. She also acts a referee of numerous international and journals. Review of IPCC reports 2001, 2007, 2013.

---

## MEMBERSHIP IN SCIENTIFIC SOCIETIES

---

European Geosciences Union / Royal Meteorological Society / Natural Hazards Society/ International Association of Hydrological Sciences  
Asociación Española de Climatología / Associació Catalana de Meteorologia

---

## MAIN RESEARCH PROGRAMMES

---

- Past climatic changes in Europe and the paleoclimatology of last glacial/interglacial cycle. C.E.E. (EV4C.0011.E). 1988-1990
- Past Climates and climatic change, climate processes and models. C.E.E. ( EPOCH 0004 ). 1990-1992.
- STORM: Flood Hazard Control by Multisensor Storm Tracking in Mediterranean Areas. E.E.C. ( Environment, EV5V-CT92-0167 ). 1992-1995.
- Aplicaciones hidrológicas del radar: optimización de la medida de lluvia por radar mediante sensores en tierra (proyecto coordinado con la Universidad Politécnica de Cataluña). CICYT. Programa Nacional de Medio Ambiente y Recursos Naturales. (AMB95-0671-C02-02 ). 1995-1998.
- FLOODAWARE: Applied researches on a transferable methodology, devoted to flood awareness and mitigation, helping the decision and negotiation proceses, adapted to a changing environment, and respecting the water resources. Unión Europea. Programa ENVIRONMENT (ENV4-CT96-0293(DG12-ESCY). 1996-1998.
- Aplicación de métodos hidrometeorológicos para la previsión de la precipitación diaria. Programa de Acciones Integradas de Investigación Científica y Técnica entre España y Francia (HF1995-0063). 1996-1997.
- ADVICE: Annual to decadal variability in climate in Europe, Unión Europea, ENVIRONMENT (ENV4-CT95-0129-PL951090), 1996-1997
- IMPROVE: Improved understanding of past climatic variability from early daily European Instrumental Sources. Unión Europea Environment and Climate (ENV4-

---

CT97-511). 1997-1998

- SPHERE: Systematic, Palaeoflood and Historical data for the improvEment of flood Risk Estimation, Unión Europea Environment and Climate (DGXII), 2000-2002.
  - FLASH: Observations, analysis and modeling of lightning activity in thunderstorms, for use in short term forecasting of flash floods. Unión Europea. Sixth Framework Programme. FP6-2005-Global-4 (n. 036852). 2006-2010
  - HYDRADMET: Desarrollo de técnicas hidrometeorológicas operativas para la previsión de inundaciones basadas en el radar meteorológico. Diseño de una herramienta inteligente para el soporte a la toma de decisiones y aplicacióna la cuenca del río Besós. (REN2000-1755-CO3-02/CLI). Ministerio de Ciencia y Tecnología. Dirección General de Investigación, 2000-2003.
  - RAMSSES: evolución de los extremos hídricos en la península ibérica en los últimos 500 años: recopilación de proxy-data y modelización regional en el litoral Mediterráneo. Ministerio de Ciencia y Tecnología. REN2002-04584-C04-03, 2002-2005
  - RINAMED : Elaboration et mise en place d'une strategie commune entre acteurs locaux des regions de l'arc mediterraneen occidental en matiere d'information et de sensibilisation des populations face aux risques naturels. Interreg IIIB MEDOCC (UE). 2002-01-4.3-E- 027, 2002-2004
  - HYDROPTIMET : Optimisation des outils de prevision hydrometeorologique. Interreg IIIB MEDOCC (UE) 2002-02-4.3-I-079, 2002-2004.
  - MEDEX: Mediterranean cyclogenesis and severe weather. WMO. 2001-
  - AMPHORE: Application des methodologies de prevision hydrometeorologiques orientees aux risques environnementaux. Interreg IIIB MEDOCC (UE), 2003-03-4.3-I-079, 2004- 2006.
  - MONEGRO: análisis meteorológico de las situaciones con precipitación de granizo mediante radar y modelización mesoescalar. Ministerio de Ciencia y Tecnología (REN2003-09617-C02-02), 2003-2006
  - RED TEMÁTICA CLIVAR. Ministerio de Educación y Ciencia. Plan Nacional de I+D. (Programa Acción Especial) (REN2002-12207-E/CLI), 2003-2004.
  - FLASH: observations, analysis and modeling of lightning activity in thunderstorms, for use in short term forecasting of flash floods. UE, Sixth Framework Programme. FP6-2005-Global-4 (n. 036852), 2006-2009.
  - EDRINA-06: Creación de un portal de internet de educación en riesgos naturales. Ministerio de Educación y Ciencia. Plan Nacional de I+D+I . Programa Nacional de Fomento de la Cultura Científica y Tecnológica (CCT005-06-00234), 2006-2007.
  - HYMEX HYdrological cycle in the Mediterranean Experiment. 2007-
  - SEVERUS: Observaciones, análisis y modelización de las situaciones de granizo y lluvias intensas sobre el NE español para la mejora de la predicción a corto plazo. Integración sobre un S.I.G. (proyecto coordinado con la Universidad de León). Ministerio de Educación y Ciencia. Plan Nacional de I+D+I 2004-2007, 2006-2009
  - SOSTAQUA: Desarrollos tecnológicos hacia el ciclo urbano del agua autosostenible. Programa CENIT del CDTI (CENIT 2007-1039), 2008-2009
  - ESTCENA: Programa coordinado para generación de escenarios regionalizados de cambio climático: regionalización estadística. Plan Nacional de Investigación Científica, Desarrollo e Innovación Tecnológica, 2008-2011
  - DRIHM (Distributed Research Infrastructure for Hydro-Meteorology). Grant agreement n°283568. Seventh Framework Programme of the European Union for Research, Technological Development and Demonstration Activities
-
